

'The Professional'
Bioresonance scanner & Treatment device:
Six-day Training

30th November -5th December 2024
in East Grinstead, W. Sussex, RH19 1BS (TBC)

Deta Elis Holding are now offering the next UK professional bioresonance training. This is a unique opportunity. Could it include you?

The 6-day training in The Professional will include:

- Introduction to the principles and history of bioresonance.
- The principles of homeopathy and potency.
- The principles of Homotoxicology and Therapeutic laws,
- Remedy testing and categories of remedies in bioresonance testing.
- Design of diagnostic equipment and involvement of practitioner/ client.
- Vegetative resonance testing, its evolution and the principles of this method.
- Technicalities, direct testing, testing through filters, diagnostic chains.
- Diagnostic coordination scales, and practical training in coordination scales.
- How to use the bioresonance test and the data analysis of results.
- Protocols of the diagnostic test and examples of the diagnostic approach for a patient.
- Preparation of drugs, testing compatibility, inverse copies and antidotes.
- Exogenous therapy.
- Treatment devices: DeVita AP, DeVita RITM, Devita Combi... and how to program these devices.
- Detoxification programs.
- The new BRT device.
- New complexes for the mini devices and coming off the mini devices.
- Practical training throughout.
- Manuals, literature and videos will also be supplied where necessary.
- A certificate will be issued at the completion of the training, which can be used for insurance purposes.
- Continuing support via email/ zoom etc and further learning:

- 2 hours monthly CPD via zoom, to continue deepening knowledge and practice.
- Annual 2 -day advanced training for a small additional fee (optional).

The capabilities of The Professional for diagnosing and treating is extensive:

- The Professional can measure electrical conductivity of biologically active sounds according to the method of Dr Voll.
- Can conduct vegetative resonance testing according to the method of H. Schimmel
- Can conduct pharmacological testing using the built-in 'DETA Pharma' pharmacological selector.
- Can copy homeopathic substances (imprinting) into water or pillules.
- Can produce homeopathic remedies, nosodes, organ remedies, antidote to toxins and autosodes from saliva, urine, blood etc
- Can be used for electro acupuncture therapy.
- Can be used for electromagnetic therapy.
- Can be used for quantum light therapy.
- Can be used for bioresonance therapy according to the methods of F. Morrell and E. Rashe.
- It can combine all of the above treatments as well as give melodies or autosodes simultaneously.

EXPERT TRAINER:

This training will be given by leading expert Dr Giannis, who is highly experienced and has given countless trainings worldwide:

'Dr Giannis Anagnopoulos MD, PhD, General practitioner, Doctor of Naturopathy, Homeopathy, and Bioresonance specialist from Athens, is one of the most experienced professional Bioresonance practitioners in the world. He has been trained on a deeper level on a wide range of frequencies by Top Russian Scientists.

He is in high demand, and travels the world training people in electromagnetic therapies and giving scans and lectures.

As a member of the scientist's team Russian Technology (Deta Elis) he was nominated doctor of the year 2018. Dr Giannis Anagnostopoulos is sought after internationally because of his incredible skill in finding the root cause, where there are toxins and infectious pathogens causing chronic conditions.'

VENUE:

The training will take place at the Community Hub in East Grinstead, which is a 5-minute walk from the station, or in Forest Row (TBC). East Grinstead has 2 trains hourly to and from London Victoria. East Grinstead is 20 minutes' drive from Gatwick airport and is 10 mins drive from M23 or from M25, J6.

The cheapest accommodation is the Travel Lodge, which is also a few minutes' walk from the venue. There are also many B&b's and other hotels nearby. There are many cafés, restaurants and places to eat within a few minutes' walk. There is also a park, a cinema and a leisure centre for those wishing to let of steam after a day of training!

TIMES:

30th November: 11-7pm, 1st-4th December: 9.30am-5.30pm
5th December: 9.30am-5pm

COST:

The training costs 1200 euros, which includes a 350-euro deposit.

BOOK YOUR PLACE:

To book your place, please complete the attached registration form and make a payment for either the deposit (€350) or the full amount (€1200). You can pay by card here: <https://bioresonancegb.eu/26-training>

or by international bank transfer to:

BANK NAME: PIRAEUS BANK. ACCOUNT No: 67 4014 1515 000

IBAN No: GR78 0171 7400 0067 4014 1515 000

SWIFT CODE/ BIC CODE: PIRBGRAA

ACCOUNT NAME: DETA ELIS HELLAS MONOPROSOPI IKE 800533943

Bank Address: 406 MESOGEION AVE & 2 IROON POLITEXNEIOU, 15342 AGIAPARASKEYI, ATHENS, GREECE

NB please ensure you use 'YOUR NAME + UK TRAINING' as the reference for the recipient. Eg: 'J. BLOGS UKTRAINING'

If paying a deposit only, please ensure that the balance is paid no later than 5th November.

Training Part 2: Medical Protocols

7-9th March 2025

This 3-day training will focus on giving medical treatment protocols for the Devita mini bioresonance devices, the Combi and the BRT. An important additional training in order to treat clients optimally, following the initial 6-day professional training.

Cost: €500
