

## COMPLEX BODY FIGURE

### WHY IS EXCESS WEIGHT DANGEROUS?

According to WHO, more than 3 billion people on Earth are already overweight, and this number is constantly increasing. Children also begin to suffer from problems with body weight - about 40 million children under the age of 15 weigh much more than the norm. Doctors sound the alarm - being overweight leads to many health problems.

With an increase in body weight, the load on the musculoskeletal system increases. Adipose tissue forms between the internal organs, disrupting their work. Vascular problems and shortness of breath appear. Due to the increased load on the legs, varicose veins develop. All this reduces the immune defense, and overweight people are more likely to get sick.

The main factor in gaining excess weight is unhealthy diet and lack of activity. This is due to the accelerating rhythm of life. We travel by car and public transport, walk a little, have a bite on the run. After work, we feel tired, and we have absolutely no strength and desire to play sports.

For most overweight people, losing weight is a very difficult task. Weight loss is a complex process that includes changing the diet, including physical activity in the daily regimen and the use of special supplements or drinks that help balance the metabolism.

**DeVita AP** – the action is based on the phenomenon of resonance, in particular, the studies of the scientist and physician Royal Raymond Rife. Rife discovered that each microorganism has an individual vibration frequency, an increase in the amplitude of which leads to the death of the microorganism without harming other cells.

Parasitic forms that live in the human body cause malfunctions in the work of organs and, as a result, metabolic disorders. And this is one of the main factors in weight gain. DeVita AP antiparasitic programs affect most parasites that negatively affect metabolism, destroying them and effectively removing parasitic load.

“Weight Reduction” automatic program reduces the parasitic load and destroys viruses that cause excess weight. In addition, it normalizes the functioning of the autonomic system, maintains the tone of the body and improves the psychoemotional state.

“Reduce Points” is used to cleanse the body of toxins, normalize lymphatic drainage, maintain immunity and increase energy.

**DeVita Ritm** gently affects the body, by giving it the frequency of vibrations of healthy organs. As a result, the body works on self-healing.

“High Tonus” automatic program is necessary to relieve toxic load from the liver, lymphatic system and kidneys, activate their work, and improve blood circulation. This helps to increase energy and improve the tone of the body. In addition, the automatic program launches natural rejuvenation processes.

“Healthy Metabolism” automatic program harmonizes the work of the body, regulates the activity of the autonomic system, stabilizes the appetite, and activates the digestive and excretory organs. This normalizes metabolic processes and the psychoemotional state, helps to reduce body weight and improve the quality of life.

**DeVita Energy** activates self-regulation mechanisms, helps accelerate the recovery process and the distribution of energy balance. Allows the body to maintain shape in the process of cleansing and losing weight, maintain vitality and good mood.

## DIRECTIONS FOR USE

### NUTRITIONAL RECOMMENDATIONS FOR USING DEVITA

Do not drink carbonated alcoholic and non-alcoholic drinks - they reduce the effects of the devices. Remove or minimize coffee in your diet. Avoid eating “junk food” (chips, crackers, etc.) - this can cause digestive problems. Drink clean drinking water for at least 1-1.5 l / day to remove toxins from the body.

### USE DEVITA DEVICES IN THE FOLLOWING SITUATIONS:

- to reduce your weight;
- to improve the figure for the summer period or an important event;
- for athletes: to “dry” the body before the competition.

### COMBINE THE DEVICES WITH DELIXIR SMART CELL NUTRITION

For best results, it is recommended to use the DeVita devices in conjunction with the DeLixir ULTRA SLIM+ smart cell nutrition supplement.

## APPLICATION SCHEMES

SCHEME	DEVICE	PROGRAM		USAGE
	1	DeVita Ritm	Auto-program	High Tonus- automatic
2	Auto-program		Healthy Metabolism- automatic	2 <sup>nd</sup> day starting at 15:00
3	DeVita AP	Auto-program	Weight Reduction- automatic	1 <sup>st</sup> day after the usage of DeVita Ritm or at night
4		Auto-program	Reduce points- automatic	2 <sup>nd</sup> day after the usage of DeVita Ritm or at night

1. It is recommended to work on this scheme after the general cleansing of the body using the complex «Digestion without problems» or «Stop parasites».
2. Further work on the scheme involves the use of the DeVita Energy device before the «High tonus» and «Healthy Metabolism» programs: «Energy Pro» and «Slimness» in the morning, followed by DeVita Ritm automatic programs: «Healthy Day» and «Health» (see scheme No. 1 «Digestion without problems»)

Attention: when using this program scheme, increased sweating and urination are possible.

# PREVENTION MEASURES FOR INCREASED BODY WEIGHT

Eat 5 times a day small portions.

The last meal should be 2 hours before bedtime.

Drink plenty of water. Water reduces appetite and helps to involve deferred fats in the metabolism, as well as remove toxins.

Eat fruits, they allow you to effectively lose weight.

Vitamins also accelerate the metabolism in cells.

Anti-cellulite massage of problematic areas accelerates blood circulation, the influx to the site of exposure increases, which significantly speeds up the metabolism.

Exercise and physical activity allow you to effectively lose weight and adjust your figure.

Observe your sleep patterns. This contributes to the renewal of brain cells, which, in turn, leads to an acceleration of the metabolism.

You will get the most effective results by combining the preventive measures with the use of DeVita technologies and DeLixir smart cell nutrition supplements

Before  
use

Increased weight, bad mood,  
heaviness and stiffness in  
movements.
