WHAT ARE THE DANGERS OF ORAL CAVITY PROBLEMS?

The human mouth is the main gateway to the body. Through it, not only vital substances enter the body, but also pathogenic forms. Therefore, it is necessary to respond in a timely manner to various changes and strange symptoms, because they can indicate not only problems with teeth, but also other organs.

The most common problems are bad breath, tooth decay, sores on the mucous membrane, plaque on the tongue. These manifestations may indicate the presence of viral (herpes), bacterial (streptococcus) and fungal (candida) infections.

Violation of the blood microcirculation, the metabolism can lead to bleeding and inflammation of the gums, which may cause loosening and loss of teeth. The same reasons often cause inflammation of the lips and salivary glands.

The condition of the oral cavity (teeth, mucous membrane, gums, tongue) is an indicator of the work of many internal organs. It is affected by: prolonged use of medications, immune failure, inflammatory processes, unbalanced nutrition, bad habits, vitamin deficiency and other factors.

DeVita AP – the action is based on the phenomenon of resonance, in particular, the studies of the scientist and physician Royal Raymond Rife. Rife discovered that each microorganism has an individual vibration frequency, an increase in the amplitude of which leads to the death of the microorganism without harming other cells.

Failure to comply with hygiene rules, bad habits, the presence of chronic inflammatory processes in the body creates a favorable environment for the development of pathogenic organisms in the oral cavity, and as a result, the occurrence of problems with teeth, gums and other organs of the oral cavity. DeVita AP antiparasitic programs help reduce pathogenic infectious load, while Special programs reduce inflammatory reactions and help recover faster after dental interventions.

“Cleansing” automatic program is used to remove toxins and reduce the toxic load on the excretory system after applying the complex of antiparasitic programs.

DeVita Ritm –In this device, the development of scientists R. Voll and A. F. Kramer is embodied, which found that each organ has a healthy frequency of oscillations. DeVita Ritm gently affects the body, by giving it the frequency of vibrations of healthy organs. As a result, the body works on self-healing.

The automatic programs “Healthy Day” and “Health” have a beneficial effect on the work of the whole organism, increasing its resistance to foreign agents. Strengthen defenses, increase vitality. The use of special programs improves blood microcirculation, strengthens gums, reduces bleeding, and restores mucous membranes. The automatic program “Complete Cleansing” normalizes the functioning of the main excretory systems and the coordination of the work of the whole organism.

DeVita Energy harmonizes the body’s work, energizes, activates the removal of toxins, starts the processes of self-regulation.

DIRECTIONS FOR USE

NUTRITIONAL RECOMMENDATIONS FOR USING DEVITA

Do not drink carbonated alcoholic and non-alcoholic drinks - they reduce the impact of the devices. Remove or minimize coffee in your diet. Avoid eating “junk food” (chips, crackers, etc.) - this can cause digestive problems. Drink clean drinking water, at least 1-1.5 L / day to remove toxins from the body.

USE DEVITA DEVICES IN THE FOLLOWING SITUATIONS:

- if you have a bad diet;
- you have bad habits;
- you are prone to frequent colds;
- you have bleeding gums, loose teeth, damage to the oral mucosa;
- you have planned dental procedures (treatment, removal, implantation, etc.).

COMBINE THE DEVICES WITH DELIXIR SMART CELL NUTRITION
