

COMPLEX MEN'S HEALTH

WHY ARE MALE HEALTH PROBLEMS DANGEROUS?

Even young men may have problems with erection due to unhealthy lifestyle and urological diseases, the most common of which is prostatitis. Another dangerous disease is prostate adenoma, a benign tumor of the prostate gland.

Every second male over age of 50, suffers from prostate adenoma.

Acute prostatitis is difficult, with increased body temperature up to 39-40 ° C. Urination is difficult and very painful. If untreated, prostatitis becomes chronic. It can affect the bladder and kidneys, cause inflammation of the prostate and sepsis. And the source of infection can not always be determined.

Prostate adenoma occurs due to a combination of reasons - age, hormonal disorders, obesity, stress, etc. Prostate adenoma is dangerous and complications cause: acute urinary retention, urinary incontinence, problems in sexual life, and infections of the genitourinary system. Adenoma often requires surgical treatment.

Due to prostatitis and prostate adenoma, not only the urination process is disturbed, but also the potency. Also, the complications of these diseases can lead to infertility. Often men are faced with psychological disorders - this leads to depression, neurosis, chronic stress and other neurological diseases.

DeVita AP – the action is based on the phenomenon of resonance, in particular, the studies of the scientist and physician Royal Raymond Rife. Rife discovered that each microorganism has an individual vibration frequency, an increase in the amplitude of which leads to the death of the microorganism without harming other cells.

Parasites cause inflammation of the genitourinary system. Diseases proceed unnoticed by humans, having a serious impact on the function of the urinary and reproductive systems. DeVita AP basic antiparasitic programs affect most known pathogens, quickly, effectively and without side effects, removing the parasitic load from the organism.

“Cleansing” automatic program is used to cleanse the body after applying basic antiparasitic programs, remove toxins, and has an antiseptic effect.

DeVita Ritm – In this device, the development of scientists R. Voll and A. F. Kramer is embodied, which found that each organ has a healthy frequency of oscillations. DeVita Ritm gently affects the body, by giving it the frequency of vibrations of healthy organs. As a result, the body works on self-healing.

“Healthy Day” and «Health» automatic programs harmonize the work of the organism, normalize the functions of the genitourinary system and improve the quality of intimate life. The automatic program “Complete Cleansing” helps in main excretory systems restoration and harmonizes the organism.

Special programs “Male sexuality”, “Men’s Health” and «Stop prostatitis» increase self-confidence and sexual desire, regulate sexual activity, ensure the normal functioning of the genitourinary system.

DeVita Energy relieves from psycho-emotional stress, restores and strengthens physiological indicators. Gives energy, reduces fatigue accumulated throughout the day.

PREVENTIVE MEASURES FOR UROGENITAL PROBLEMS

Maintain a regular and stable sex life. Excessive activity and prolonged abstinence lead to disruption of the genitourinary system.

Exercise at least 20 minutes a day.

Avoid hypothermia, especially in the groin area.

When changing your regular partner, be sure to use condoms. Sexually transmitted infections can cause prostatitis.

Keep a track of your bowel movements. Frequent constipation leads to prostatitis..

4 times a year, have a massage of the lower back area.

Have a routine examination by a urologist 2 times a year.

Diversify your diet with fresh fruits, vegetables, herbs, seafood, nuts and seeds.

You will get the most effective results by combining the preventive measures with the use of DeVita technologies and DeLixir smart cell nutrition supplements.
