

COMPLEX STOP ALLERGY

HOW DANGEROUS ARE ALLERGY MANIFESTATIONS?

Allergy is a disrupted mechanism for the implementation of the body's immune response. The body mistakenly takes a substance as a threat to life and forces the immune system to produce antibodies and various chemicals, one of which is histamine, which causes allergy symptoms.

In addition to food, wool and pollen, the role of an allergen can be played by chemical substances, some metals, alcohol, cold and even sunlight. There is also an allergy to substances formed inside the body itself. Often the symptoms are similar to the common cold or usual fatigue, making diagnosis difficult.

Allergic reactions may be the cause of development of bronchial asthma, hay fever, allergic dermatitis. The most serious complications are convulsions, acute vascular insufficiency, stomach cramps. The most severe allergic reactions - anaphylactic shock and Quincke's edema - lead to instant death.

According to statistics from the World Health Organization, about 40% of the world's population suffer from allergies. Diagnosing and identifying allergens is a complex and time-consuming process, and treatment is reduced to reduce symptoms and alleviate the general condition of the body, but does not eliminate the allergy in general.

DeVita AP – the action is based on the phenomenon of resonance, in particular, the studies of the scientist and physician Royal Raymond Rife. Rife discovered that each microorganism has an individual vibration frequency, an increase in the amplitude of which leads to the death of the microorganism without harming other cells.

Bacteria, fungi, viruses, helminths are biological allergens. The basic antiparasitic programs of DeVita AP affect most microorganisms, quickly, efficiently and without side effects, removing the pathogenic load.

Parasitic burdening of the liver and blood reduces their functions, enhances intoxication and allergic reactions. Special programs “No schistosomes (blood-flukes) & trematods”, “No allergies”, “No herpes” relieve the pathogenic load.

The “Cleansing” program is used to cleanse the body after applying antiparasitic programs, the removal of toxins, which can also be allergens.

DeVita Ritm – In this device, the development of scientists R. Voll and A. F. Kramer is embodied, which found that each organ has a healthy frequency of oscillations. DeVita Ritm gently affects the body, by giving it the frequency of vibrations of healthy organs. As a result, the body works on self-healing.

“Healthy Day” and “Health” automatic programs have a beneficial effect on the work of the whole organism, increasing its resistance to foreign agents. Strengthens the immune system, increases vitality. Special programs “Without allergens” and “Anti-cold” relieve from itching, reduce lacrimation, swelling of the mucous membranes, and activate immune defense in case of allergies. The automatic program “Complete Cleansing” helps in the restoration of the basic functions of the excretory system and in the harmonization of the body.

DeVita Energy harmonizes the work of the body, energizes, activates the process of elimination of toxins. Improves the general condition when allergic reactions manifest, reduces lethargy and drowsiness arising when taking antihistamines.

DIRECTIONS FOR USE

NUTRITIONAL RECOMMENDATIONS FOR USING DEVITA

Do not drink carbonated alcoholic and non-alcoholic drinks - they reduce the impact of the devices. Remove or minimize coffee in your diet. Avoid eating “junk food” (chips, crackers, etc.) - this can cause digestive problems. Drink clean drinking water, at least 1-1.5 L / day to remove toxins from the body.

USE DEVITA DEVICES IN THE FOLLOWING SITUATIONS:

Allergy is a consequence of intoxication of the body. To minimize its manifestations, it is recommended to carry out cleansing measures within 6 months. In the first three months it is necessary to use the devices according to schemes 1-3, in the next 3 months - alternate schemes 2 and 3. When cleansing and restoring the body, minor exacerbations are possible, in this case, a break in the use of devices is necessary.

In acute and severe conditions, special programs can be included several times a day.

COMBINE THE DEVICES WITH DELIXIR SMART CELL NUTRITION

For best results, it is recommended to use the DeVita devices together with DeLixir DETOX and DeLixir pH BALANCE smart cell nutrition supplements (if there is no food allergy).

SCHEME №1 DURING 1 st MONTH	DEVICE	PROGRAM		USAGE	
	1	DeVita Energy	Energy or Energy Pro		Once in the morning.
	2	DeVita Ritm	Auto-programs	Healthy Day-automatic, Health-automatic	Daily in the morning, alternating with each other every other day.

	6			No allergies	In the evenings after the DeVita Ritm programs.
7	No schistosomes (blood-flukes) & trematods			In the evenings after the DeVita Ritm programs, 14 days.	

SCHEME №3 DURING 3 rd MONTH	DEVICE	PROGRAM		USAGE	
	1	DeVita Energy	Mode program		1-2 times in the morning.
	2	DeVita Ritm	Auto-programs	Complete Cleansing-automatic	Daily from 8 a.m.
3	DeVita AP	Auto-programs	Mode 1-4 automatic	If necessary, at night.	

SCHEME №4 DURING 4 th MONTH	DEVICE	PROGRAM		USAGE	
	1	DeVita Energy	Mode program		1-2 times in the morning.
	2	DeVita Ritm	Auto-programs	Healthy Day-automatic, Health-automatic	Daily in the morning, alternating with each other every other day.
	3		Special programs	Without allergens	Daily afternoon.
	4	Anti-Cold, Free breath		If necessary, according to guidelines.	
	5	DeVita AP	Special programs	No allergies	In the evenings after the DeVita Ritm programs.
6	No nematodes and ascarides, No parasites - automatic			At night, alternating every other day for 2 weeks	

PREVENTION MEASURES FOR ALLERGIC REACTIONS

If you already have an allergy to any substance, go through a full allergen test. Often an allergy-prone organism cannot tolerate several foods.

Check the gastrointestinal tract. The presence of helminths, dysbiosis and diarrhea problems exacerbate the course of allergic reactions.

If you are allergic to dust, store bedding, pillows, and books in tightly closed cabinets. Wash clothes weekly at a temperature of at least 60 °C.

When hay fever starts, perform frequent wet cleaning of your personal and living space every day. Take off your outdoor shoes and clothes at the doorstep - pollen and plant seeds accumulate on them.

For food allergies, avoid foods with strong allergenic properties: honey, peanuts, fish and seafood, spices, chocolate, citrus fruits, tomatoes, strawberries.

Use the medicine only as directed by your doctor. Keep track of the expiration date of drugs - expired drugs emit volatile allergenic substances.

If you are allergic to mold, do not close the doors to the bathroom and the kitchen. Throw away moldy foods. Check the flower pots - mold may form in them.

You will get the most effective results by combining the preventive measures with the use of DeVita technologies and DeLixir smart cell nutrition supplements.

Before
use

Runny nose, itching, swelling, skin rashes, lacrimation.

After first use
of DeVita

Reduced itching, relieve from swelling, better general condition.

After a month
of using DeVita

Reduced allergy manifestation, reduced rashes, breathing relief.

Use the recovery scheme of the "STOP ALLERGY" complex together with DeLixir DETOX and DeLixir pH BALANCE smart cell nutrition supplements (if there is no food allergy), and your results will become noticeable much faster.
